THE GRAPE CROP SPLENDID.

Albermarle Farmers Greatly Please.

Military and Personal Notes.

CHARLOTTESVILLE, VA.—August 31. (Special)—It was for a long time the belief of grape growers that grape rot is due to wet weather, but in recent years better knowledge has led the more observant of grape men to abandon this theory. The present season has been unusually wet, and yet the yield of the Albermarle vineyards is almost unprecedented in quantity as well as in quality. The Delaware and the Concord are especially fine. The wine product will be so great as to tax the capacity of the large cellars in this section.

A telegram has just been received here announcing that Henry S. Rucker, of Company D, Third Virginia, at Camp Alger, has, through the efforts of the Hon. James Hay, been discharged on account of physical disability. Mr. Rucker has been sick in camp for some time. He is a son of Mr. A. C. Rucker, Street Commissioner of this city, who was one of McWayne's men.

Mr. Rucker has another son in Company D, with whom the service agrees very well.

James Tucker and Ernest Wood (colored) were embarrassed by having the charge of being the last man placed against them, and they will endeavor on the 1st of September to show cause why they should be released.

Page Banks (colored), witness in a case, failed to appear on time, and he was arrested.

Best Bill of the Season.

The bill at Broad-Street Park this week is going to be a success, and is highly drawing large crowds.

No artist ever seen at the park has met with the success that belongs to Fielding, the comic juggler, who thrills the large crowds with the variety and humor of his feats. He amuses them with his droll and pleasant comedy, which is heightened by his clown make-up. The three Harriers have in "The Hungry Army" a sketch that is a bright array of clever dancing and a musical comedy.

The noted violinist and chemist, as well as many other artists equally prominent, recommend the advanced generation of to-day to take less medicine and more healthy food and drink, and especially advise the use of "King's Ambrosia" as a general tonic, non-stimulating, non-astringing, yet possessing a full hop flavor and all the medicinal properties of malt tonics without their objectionable features.

This is a refreshing, invigorating, thirst-quenching drink, and not in any sense a medicine, although it has medicinal properties, bracing up the system, soothing the nerves, relieving headache, insomnia, and worry, creates a healthy appetite, and makes those who drink it feel equal to anything.

"King's Ambrosia" is made only by Phillip Kline Company, Detroit, Mich., and is on sale by nearly all grocers and druggists. If you do not sell it, we can supply it for you, and you can send a post to the address below.

Be sure you refuse all substitutes, many of which are harmful—in fact, there are already several cases of the market, however, to be overdone, and those who are hearty participants in sports, as well as those who are thinking of joining in, should pay heed to take the advice of Dr. John C. Clarke, M. D.
